#### GRADUATION EXERCISES

The graduation exercises of Norway High School were held in the Opera House, Friday evening, June 16, before a crowd that taxed the seating capacity of the hall. Decorations about the stage were blue and white, the class colors, with an arch of white displaying the class motto in blue "Today Decides Tomorrow." Plant foliage was tastefully banked about the front of the stage.

Shortly after 8 o'clock the Norway High School Orchestra opened the program with a march and the long line of seniors and undergraduates marched to their seats, led by the twin sons of Mr. and Mrs. H. Walter Brown, Junior and Hovith. The student body occupied seats in the middle section and the graduates with Principal A. C. Parker and marshalled by William B. Ledger marched to chairs arranged on the stage. Excellent music was furnished during the evening by the Norway High School Orchestra, composed of members of the band by first name and assisted by Mrs. Azola Pike Edwards at the piano.

After a prayer by Rev. T. C. Chapman of the Methodist Episcopal Church, the following exercises were carried out: Salutatory.....Dorothy Ebelyn Cummings To Be or Not To Be.....Clarence Dyer Wage Versus Education.....William Benjamin Ledger Class History.....Virginia Keith Hall The Secret of Success.....Clara Florence Harwood Requirements for a Business Education.....Virginia Keith Hall Class Gifts.....Warren Francis Knightly Value of Education.....Verna Leona Kimball Class Prophecy.....Verna Leona Kimball Habits.....Verna Leona Kimball Class Will.....Verna Leona Kimball The Power of a Purpose.....Doris Cummings Memory.....Doris Cummings Valedictory.....Theodore Manning Brown Presentation of Don Seitz Prize.....Class Ode

Doris Cummings welcomed parents, relatives, friends, alumni, superintendent, school board members, teacher, undergraduates, with appropriate, well chosen words. School life she likened to a garden of tender plants to be nurtured and cared for by the better citizens before being sent out into the world gardens. In closing she said: "As we go on into the future may we prove to you that our life in the garden was a success and may we all by our every deed make you proud of us—proud to have been a factor in the cultivation of our garden."

By radio messages and chance news extracts Verna Kimball made known the future of the class of 1922. Theodore Brown was pastor, Albert Knightly, a political speaker, Doris Cummings, a lecturer; Alton Thurston, proprietor of "Lone Star Ranch" in the West; Richard Perkins, a missionary; Floyd Tucker, a travelling salesman; Alton Bradford, a movie actor; Clarence Dyer, an aviator; "Fritter" Lewis, a happy-go-lucky regular caveaner camper; Bill Ledger, a druggist; Doris Beck, a waitress; Catherine Littlefield, a vaudeville actress; and Frances McAllister, a great artist; Verna Virginia Hall, a great artist; Pat Mator, a policeman in Portland; Thelma Tracy, a stenographer later marrying her employer; Carl Perry, proprietor of Maple Spring Hotel, competing with Poland Spring; Mabel Perry, dressmaker; Clara Harwood, a dean in a Vermont Girls' College; Warren Knightly, publisher of a farmers' magazine; and Kenneth Ross, owner of a farm of wild animals. Addie Longley and Eleanor Smith were the senior girls, the former a dancer and the latter famous pianist; Glyndon Savin, an electrical engineer, inventing air garages, moving side walks, etc.

Class gifts were presented by Virginia Keith Hall as follows: Carl Perry, miniature aeroplane for a quick delivery of Maple Lane Spring water. Catherine Littlefield, auto jack to raise a low built Ford. Doris Cummings, box on which to stand while delivering stump speeches. Clarence Dyer, Bar trumpet; unable to hear in the class room and deafness is suspected. Clara Harwood, spectacles, to assist in carrying out the role of old maid as given in the prophecy. Theodore Brown, dance cap, having fallen ten points below the 100 per cent. mark and landed valedictorian of the class.

Doris Beck, quill pen, to use when editor, manager and distributor of the "Village News" or "Town Gossip." Richard Perkins, tiny telescope to aid his natural curiosity. Verna Kimball, tiny dancing slipper, to drive away the tired feeling on the morning after. Warren Knightly, toy pig, cow and horse, for stock on a farm he is to occupy. William Ledger, mask, to conceal the marcelled hair, dimples and pink cheeks. Frances McAllister, bell to be worn around the neck; usually so quiet her presence is not realized. Floyd Tucker, spikes, can and strings, materials to be converted into some wonderful invention.

Eleanor Smith and Addie Belle Longley, horse to be used in the study of Latin while trotting through college. Albert Knightly, coquette, the class flirt will not find her hard to vamp and won't be in much danger of losing his game. Thelma Tracy, fly paper, to catch and keep her admirers. Francis Lewis, chain to bind him and help overcome the "cave-man" stuff. Glyndon Savin, lunch pail, to be carried on the bus from South Paris when tempted to leave the trip before the afternoon session. Paul Newers, yeast cake, to be used according to directions. Mabel Perry, skinny rag doll, for a dressmaker's model. Alton Bradford, small roadster to replace the Norway Laundry truck and avoid embarrassment, while giving the young ladies a spin.

Alton Thurston, picture of a beautiful girl before which to practice and perfect his wonderful smile. Elsie Mator, a hatchet to enlarge the doors at Bates College. Kenneth Ross, toy rabbit, a convenient animal to show after a hunting trip.

Class History, given by Clarence A. Dyer was an interesting story of events which transpired during the past four years. Imagination led the speaker through field and forest where on each falling leaf, or mirrored on the surface of the silent pool, were fragments telling important events concerning the school and its students.

The last will and testament drawn by Paul L. Nevers contained thirty-two articles of bequests to teachers and undergraduates. All treasures were mental and material which must be left behind as the class enters a new world.

Theodore Manning Brown as valedictorian gave the farewell address to teachers, undergraduates and classmates and all connected with their school work. He thanked all for their co-operation and to his classmates said: "We have met as a class for the last time; some are leaving school, others are to continue their education in higher grades of learning. While we are sorry to part we are eager to learn what we can. But classmates, remember, whatever good or evil you do reflects on your alma mater."

Diplomas were conferred with appropriate remarks by Superintendent Earl Stuart. The Don Seitz prize of \$25 in gold was presented to Theodore M. Brown for the highest scholarship during the high school career. The class ode written by Addie Belle Longley, music by Alton Bradford was sung and the exercises closed by a selection by the orchestra.

The deceased was the daughter of Harvey and Laura Gammon Dunham, born in Hebron, March 28, 1845.

The family moved to Norway about twenty-seven years ago and bought a residence on Paris street where they resided until a few years ago. She was not able to join in the activities of the village but attended the Congregational church regularly until disease made her a shut-in a few years since. She leaves her husband but no children.

The funeral was held at the home Wednesday afternoon at 1:30 o'clock, attended by Rev. O. E. Barnard of the Congregational church. Burial was in Maple Ridge Cemetery at Hebron.

The Legion stands for Americanism of the real kind. A wearer of the button proves he is not "passing the buck" to someone else to see that the sick and disabled buddies get justice and to fulfill all these things that he desired to result from the war.

High Water With the Annual Scare  
The heavy rain storm commencing Saturday afternoon and continuing until Monday evening raised Lake Penesseessee thirteen inches. All ponds and streams were at high water mark, with the lowlands overflowed and many hoed crops submerged.

Damage in Norway village was light and confined to property adjoining the outlet stream of the lake. Numerous cellars were flooded and C. B. Cummings & Sons Co. plant was temporarily flooded up. Their mill yard was flooded, water entered the fire room and the basement of the new dovel mill. Greenleaf Avenue was impassable to pedestrians Monday, as the road near the iron bridge was flooded.

Watchmen were stationed on the mill dam near the head of Main street and a crew watched the dam at the outlet of Norway Pond which was believed to be in imminent danger of giving out. Close telephone communication was established between North Pond and the village, and warning could be given if the worst happened. Arrangements had been made to blow the whistle at the Cummings mill as a signal for all employed in store basements or near the river level to seek higher quarters.

The rain settled into a drizzle late Monday and ceased before midnight. A drop of several inches in the flood was noted Tuesday morning and the immediate danger passed.

Official reports announce five inches of rain fell during the storm.

Gammon-Field  
A beautiful wedding occurred at the parsonage of the Wesley Methodist Episcopal Church, Bath, at 12:00 noon (standard time) on Saturday, June 17, the contracting parties being Frank E. Gammon of Norway and Miss H. Alice Field of South Paris. The bridal couple were unattended and stood beneath a bower of syringa blossoms while the impressive double ring Episcopal service was performed by Rev. Chas. E. Brooks, brother-in-law of the groom.

The bride, who was becomingly gowned in a travelling suit of navy blue, is a daughter of Mr. and Mrs. Fremont H. Field of Paris and was educated in the public schools of that town and is a prominent member of Paris Grange.

The groom is the only son of Mr. and Mrs. Charles E. Gammon of Norway and is a prosperous farmer and orchardist, and owner of Norway Grange and Norway Lodge, No. 16 I. O. E.

After a brief honeymoon the happy couple will reside at the Gammon home at Norway. The best wishes of a large circle of friends go with them as they start out on their journey together through life.

## A FAIR WARNING

One That Should Be Heeded By Norway Residents

Frequently the first sign of kidney trouble is a slight ache or pain in the loins. Neglect of this warning makes the way easy for more serious troubles—dropsy, gravel, Bright's disease. 'Tis well to pay attention to the first sign. Weak kidneys generally grow weaker and delay is often dangerous. Residents of this locality place reliance in Doan's Kidney Pills. This tested remedy has been used in kidney trouble over 50 years—is recommended all over the civilized world. Read the following:

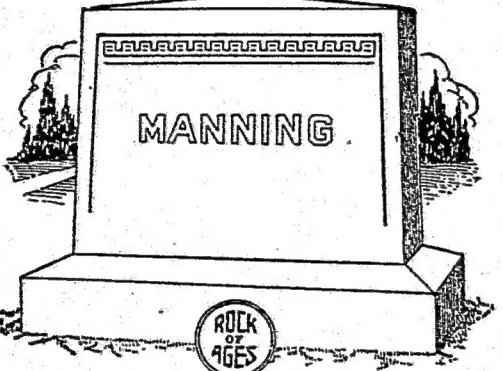

Mrs. G. D. Frost, 6 Tucker St., Norway, says: "At the time I used Doan's Kidney Pills they helped me wonderfully and I take pleasure in recommending them. My back gave me trouble and there seemed to be a deep seated pain across the center of my back. My kidneys didn't act regularly and in other ways showed signs of disorder. As Doan's Kidney Pills had been used in the family with good results, I decided to try them and got a box. After using them, the trouble left me entirely."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Frost had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## CASCO

Gerry-Hutchins

Bertha Elaine Hutchins of Casco vil-  
lage and John Maynard Gerry of Ray-  
mond were united in the bonds of matri-  
mony Saturday evening, June 17th, at  
eight o'clock by Rev. Gowell of East Ray-  
mond.

Although a private wedding with only  
very intimate friends and relatives pres-  
ent, the whole of Casco was with them in  
heart and accompanied them to East Ray-  
mond, where the young couple expect to  
make their home for the present.

Miss Hutchins was born in Edgecomb  
and is now eighteen years of age. She  
has been making her home with her sis-  
ter, Mrs. Raymond Fickett of Casco vil-  
lage during her high school course. She  
was salutatorian of the graduating class  
of Casco High School, Friday evening,  
June 15th and her originality, voice and  
fine personality will long be remembered  
by those who heard her. As testator on  
class night, Thursday evening, June 14,  
she was a gem.

John Maynard Gerry was born in Ray-  
mond and is twenty-one years of age. He  
was educated in the Raymond Schools and  
always worked in Raymond and Casco  
being known as an honest, steady young  
man. He has been engaged with John  
Symonds, a lumberman of Webb's Mills,  
who always has work for a reliable man.  
He also works for the Dupont Co., who  
are also in the lumber business.

The graduating exercises of Casco High  
School, Thursday afternoon, June 15, were  
largely attended, not only by Casco people  
but by relatives and friends from out of  
town. The orchestra consisting of Al-  
mond Waterhouse of Poland, violinist;  
Cecil Russell of Mechanic Falls and Ber-  
tha Mayberry of Auburn furnished first  
class music for the occasion. Rev. Gil-  
patrick gave the prayer and benediction  
with Bertha E. Hutchins as salutatorian,  
Helen M. Chute, valedictorian; Fred N.  
Mains, Violet G. Watkins, and Francis  
Hall as essayists and Harriett Burgess,  
marshal representing the class of 1923 all  
gave work Casco may well be proud of.  
All students of Casco High School  
marched in attending the exercises in a  
body.

Edward Hutchins of Leominster, Mass.,  
Mrs. Bernard Hutchins, Mrs. Freeman  
Hutchins and Josephine Hutchins of Wis-  
casset visited Bertha Hutchins and her  
sister, Mrs. Raymond Fickett, a few days  
last week.

Kenneth Bartlett of Webb's Mills and  
Ira Stevens were married at South Paris  
Wednesday, June 14. They are to reside  
at the latter place.

Marion Small of Webb's Mills and  
Glen Keniston of South Paris were mar-  
ried at Raymond, Thursday, June 15. Rev.  
Samuel Brown officiated.

The 4th of July celebration to be held  
at Webb's Mills, is to be one of the big-  
gest events here in years on this day. The  
soldiers and band from Bridgton, the  
camp girls, the two parades, dinner dance  
and general program of the 4th is to be  
featured in all its glory. Everyone is in-  
vited to attend and make it a success.

## 146 Years Ago

our forefathers signed the Declaration of Independ-

laws. Everyone was happy, bells pealed, drums  
rolled, cannons boomed. No more tyranny, no more  
laws made by the rulers of other countries. Every  
American should make this the day of all days, by  
showing his loyalty to the Stars and Stripes. We  
have absolutely the best line of Gent's Furnishings

### THE SHIP SUBSIDY BILL

The Ship Subsidy bill known as the Jones-Green Bill now pending before Congress is of great importance not only because of its great possibilities for levying a great amount of additional taxes upon us for indefinite years to come, but as a true guide to the course Congress has pursued for the last fourteen years. This bill will easily be made to draw from the people in the way of taxes \$100,000,000.00 a year for an indefinite period of time.

Who will be the largest beneficiaries if this enormous sum that must be raised by more taxes on the public? First of all The International Mercantile Marine; organized and controlled by the J. P. Morgan & Co., the greatest financial institution the world ever saw. This firm organized and controls the United States Steel, the largest individual corporation in the world. This house also controls more of the twenty-one billions of railroad property in this country than all other financial institutions combined.

There is no doubt that they want Congress to tax the people and pay this enormous sum of money into the treasury of their shipping trust.

What is this trust? Special diplomatic and consular reports of 1913, Page 38 informs us that in 1902 this trust was formed and included the White Star, Dominion, Leyland, Atlantic, Atlantic Transport, Red Star and Holland American Lines.

The White Star Line for an example was owned by a British company called the Oceanic Steam Navigation Co. and nearly all of the stock was owned in Great Britain. For each one thousand pound share of this stock The International Mercantile Marine Co. paid four thousand, one hundred and ninety-six pounds in cash and 6000 lbs. in the preferred and common stock of the trust. In plain language they watered the stock a little 1,000 per cent.

What did this line pay on its original capitalization?

Page 39 of the same record you will find that in the year 1910 on its actual capitalization of \$8,750,000.00 this line earned a net profit of \$2,700,000.00 aside from laying a fund for depreciation of \$1,850,080.00 and other large balances carried forward or placed to various reserves among which was a sum of \$500,000.00 set aside as an insurance fund in view of the increase in the fleet. This year a dividend of 30% was paid.

Please bear in mind that this 30% on their actual capital investment would be less than 3% on their 1,000% watered capitalization.

Previous to the entry of this great American Mideast into the shipping business rates were low and neither producer or consumer were robbed by them. In 1910 after the shipping combines had cinched their hold on the commerce of the world and had already materially advanced rates, the average price for carrying our farm products to our largest foreign market was \$2.69 per ton. In 1912 this rate was arbitrarily advanced to \$6.72 and in 1914 to \$14.00 per ton and in 1917 the last apples I shipped during the war, I paid \$2.00 per bbl. or \$25.00 per ton from that time until long after the close of the war the Shipping Board would give no information in regard to rates but after the close of the war they allowed us to ship for \$5.00 per barrel, cash in advance.

Now what does this poor Mendicant, this Poor Pan-handling trust admit before this committee that their earnings have been during the past six years? Not quite one hundred percent. Well that would seem a pretty fair dividend and being on their 1,000% watered stock it was no doubt about one thousand percent dividend on the actual investment.

Another prospective beneficiary under this act will be the United Fruit Co. The Banana Trust. This concern passed out to their stockholders a 100% stock dividend and then paid in dividends about \$36,000,000.00 and passed about \$20,000,000.00 to surplus.

In 1916, the American-Hawaiian Steamship Co. paid a dividend of 190% and in 1917, 395%. The Luckenbach Steamship Co. made a net profit on their capital stock of 232.2 percent in 1916 and 666.9 percent in 1917.

These things have been accomplished with knowledge and consent of Congress, the President and Shipping Board.

These conditions remind me of a remark made by James G. Blaine that "If the American people did not govern themselves someone else would."

R. L. Cummings, West Paris.

### SWEDEN

I wonder how many noticed the rain-bow Sunday night, June 11. It was very bright and made a big change in the weather.

The men are nearly done at the portable mill on the Plummer lot in this town.

Beatrice Saunders is in poor health. Mrs. Will Buswell went home Sunday to be with her daughter Gladys, who expects to go to Lakeport, N. H. to assist Mrs. Fred Sanborn at the Lake Shore Park through the summer months.

Wendel Plummer and mother, Bethel Bennett and wife made a trip to Portland Monday June 12. They went in Plummer's new Maxwell car.

Mrs. Harry Saunders and daughter, Eleanor are visiting friends in Norway. Mr. and Mrs. Elmer H. Stevens and son Albert of Peabody Mass., spent the week end at the Plummer Homestead, June 10th.

Lesmore Durgin and Frank Pike have started on their job at Camp Tapawingo.

### EAST BROWNFIELD.

The garage of Mr. Leonard Bradbury's getting fire from the Morrill factory close by aroused the people in close proximity. Mrs. Ella Bradbury did some active work on behalf of the town, causing said concern to give greater protection against danger.

Mr. and Mrs. Russ and children are guests in town.

High School Graduation was June 16, at church with 3 graduates, Leon Brooks, salutatory; Irving Rose, essay; Doris Hill, valedictory; Minna Bradbury, represented the Junior class; Sylvia Brown, prophecy; Olive Hill represented the Freshmen class.

Professor George Haley, who teaches in a University in San Francisco Cal. and his wife, formerly Cora Giles are in the Giles home for the summer. The Misses Stevens are in their summer home.

Leonard Bradbury has dressed his house and out building with a fresh coat of white paint.

Mrs. Earle and Miss Giles, High School teachers have left town.

## Not even USCO ever touched this value before

### 30 x 3 1/2 - \$10.90

WHEN you look at a 30 x 3 1/2 USCO at \$10.90 think back for a minute as far as you can remember USCO.

The truth is that men have always found USCO an outstanding money's worth no matter what its price.

Today at \$10.90 USCO maintains its established standard of quality.

And because of the new price, it sets a new index of tire value.

Men who have used USCO have never been inclined to measure its value by the general run of tires.

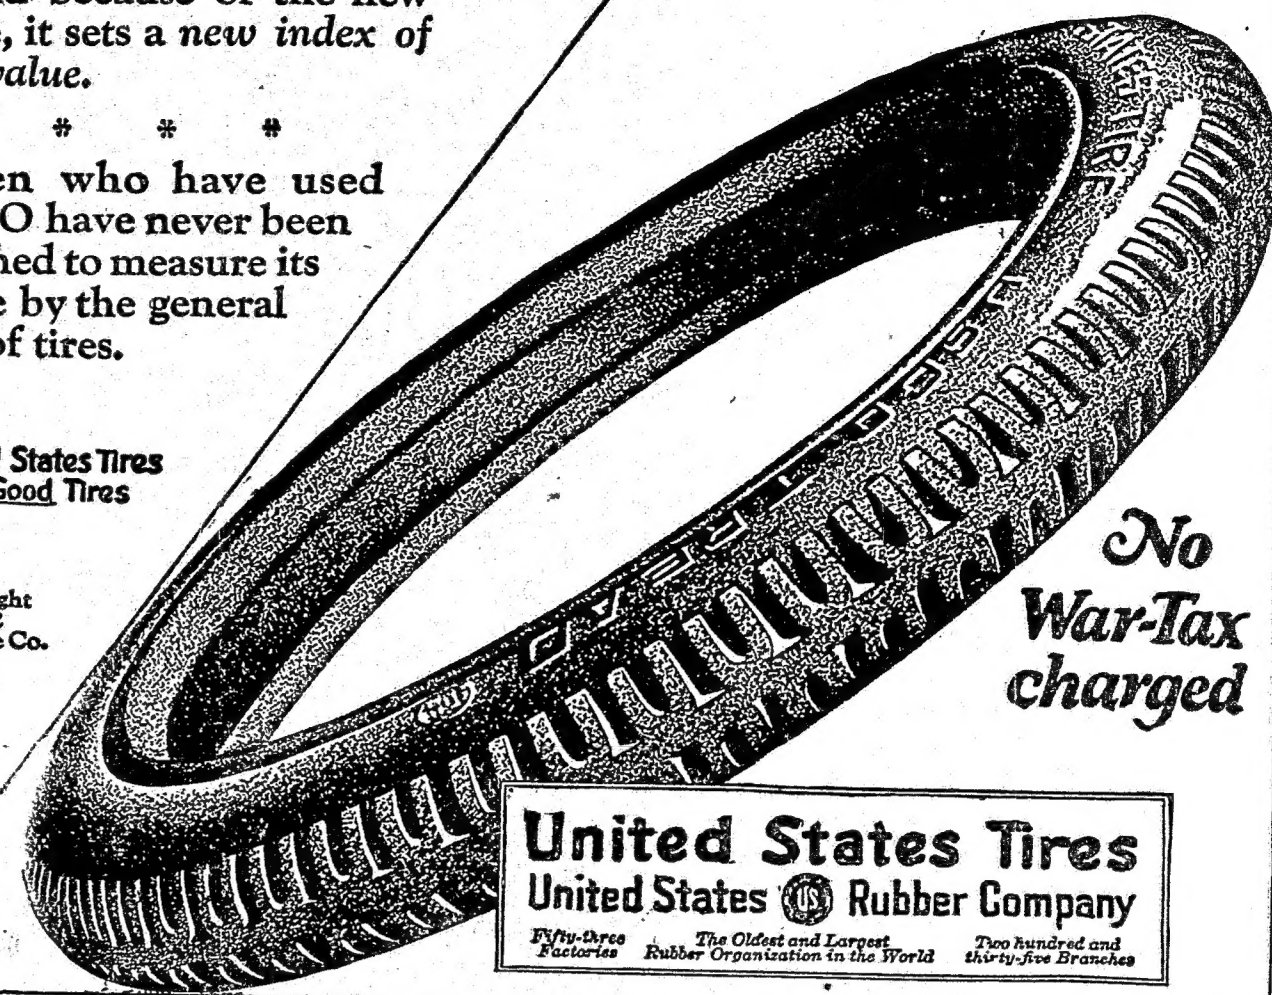

United States Tires are Good Tires

Copyright 1922 U.S. Tire Co.

Since last fall when USCO established the \$10.90 price range they have recognized it as a value beyond any possible comparison.

A still greater money's worth than even USCO itself had reached before.

Presentation of diplomas was by the Supervisor of Schools, Miss Swazey. "Nothing Succeeds like Success" and the possession of a diploma represents many things beside personal endeavor, among them being a high regard for teachers, parents and the many friends of the dear home town who have helped to scatter sunshine along their way. One friend in particular will be greatly remembered, Ellsworth Sawyer, for his unflinching kindness in tutoring the class in the various dramas which were given for the benefit of the school.

Emma, Verna and Robert Foss are visiting friends in Passaic, New Jersey. For the first time in its history, the Parsonsfield side of the village, thanks to the new law, furnished its inhabitants with a commodious place to vote without going to the town house nine miles away. It rained almost continuously for four or five days; the roads are badly washed and many acres of tilled land submerged with the prospect of having to be replanted. The Great Ossipee, too, is within four inches of the high water mark.

Mr. and Mrs. C. W. Farrington attended the Rebekah District meeting at Lovell the 15th and report a good time.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system thus reducing inflammation and restoring normal conditions. All Druggists. Circulars Free. F. J. ## Standard Service

With our experience and equipment we have a notion that we could work out a pretty fair sort of battery service without much help.

But we also have an idea that it wouldn't measure up to the brand of service developed for our use by the Willard Storage Battery Company.

As Battery Headquarters we have the benefit of their years of experience, and of the definite national standards of service they have been able to develop as a result.

Come in! No matter what make of battery you happen to have it needs the sort of attention provided by the Willard Standard of Service.

## Relief from

### Rheumatic Pains

Rheumatism is a constitutional  
disease. It causes local aches and  
pains, inflamed joints and stiff  
muscles; but cannot be permanently  
relieved by local or external applica-  
tions. It must have constitutional  
treatment.  
Take the great blood-purifying and  
tonic medicine, Hood's Sarsaparilla,  
which corrects the acid condition of  
the blood, and gives permanent relief.  
It combines the most effective agents  
in the treatment of this disease.

We have several customers waiting to buy

your description at once. No pay-  
ment unless sale is made thru our

## Lake View Casino Opened

The new Lake View Casino near Croc-  
etts bridge on the shore of Lake Pen-  
nesseewassee was opened to the public Tues-  
day evening and the crowd was there.  
Howard Shaw of South Paris, who owns  
the property for the summer had the  
Casino tastefully decorated and put on  
his well known orchestra of six pieces  
for dancing. Refreshments were served  
by Carroll Edwards of South Paris.  
The dancing surface was crowded and  
many spectators occupied the veranda.  
Another crowd unable to gain admittance  
to the building remained in the grove and  
listened to the music. Automobiles  
from far and near parked in the field  
across the highway from the grove.

The Casino is a neat building, 50x70  
feet, built on cement piers close to the  
lake shore. There are dressing rooms  
and a well appointed refreshment booth.  
A fine surface for dancing is there and  
no pains will be spared to make it one  
of the best in this vicinity. Electricity  
lights the Casino and grounds and rustic  
benches will be placed about the grounds  
for the convenience of the patrons not  
wishing to dance.

Although the park is open for dancing  
only Tuesday and Friday evening the  
public can have free use of the grounds  
for picnics and recreation. The spot is  
on the point justifying the name of Lake  
beautiful view is offered and refreshing  
breezes across the sheet of water should  
prove attractive during the summer  
months. C. H. Adams, the owner and  
Howard Shaw have generously offered  
the location for public use with the un-  
derstanding the privilege will not be abus-  
ed. A little care in disposing of waste  
paper and lunch boxes, not building fires  
or forcing an entrance into the Casino  
will keep the spot open to all. Refuse  
must not be thrown into the lake.

## BOYS' AND GIRLS' CLUBS NOTES

Reports from the county agents rec-  
eived at the extension service headquarters  
of the College of Agriculture show a total  
enrollment of 3,996 members in the  
boys' and girls' agricultural and home-  
making clubs of Maine, up to June 15.  
This is an increase of 1,164 over the re-  
cord on the corresponding date of year ago,  
and is 559 ahead of the entire enroll-  
ment of last year. Every county in the  
state except two has already exceeded its  
total enrollment of 1921. Oxford still  
leads the counties, with 647 enrolled,  
and Hancock clings to second place, with  
439.

A joint motor tour and field day of  
boys' and girls' agricultural clubs of  
eight counties is a novelty planned for  
Wednesday, June 28. The destination  
will be Maine's Capitol City of Augusta  
and the counties represented by the clubs  
participating are Androscoggin, Frank-  
lin, Knox, Lincoln, Somerset, Sagadahoc,  
Oxford and Kennebec. The club mem-  
bers will be accompanied by their local  
and project leaders, the county agents  
and home demonstration agents.

They will start from their home  
towns in season of road. Augusta not  
later than 10:30 a. m. Their route will  
be met by the state leaders and by Dean  
Leon S. Merrill, director of the College of  
Agriculture extension service under  
whose supervision club work is conducted  
in Maine. Governor Baxter is planning  
to be on hand to greet the visitors and  
has extended to them an invitation to  
visit the Baline Mansion as well as the  
Capitol.

At noon a picnic lunch will be par-  
taken of on the Capitol grounds, and  
pampering the entire party. In the  
afternoon the entire party will go to Togus  
and visit the National Soldiers' Home.  
The automobiles and trucks that con-  
vey the clubs on the tour will be decorated  
with club colors and banners. It is  
expected that all along the route, and  
especially on the Capitol grounds, the vis-  
itors will exercise their lungs with their  
club songs and cheers.

### OXFORD COUNTY SCOUT CAMP NOTES

Over 100 different boys have filed applications for the Oxford County Scout Camp at Locke's Mills. The majority of the scouts applying will stay from one to two weeks each. There is a good representation from every town in scouting.

Another set of Camp Questionnaires will be in by June 30 and should produce another hundred boys. Enthusiasm is generating fast in every town and camp applications are being filed every day. The Oxford County Scout Camp shows every prospect of being the largest Scout Camp in the State of Maine.

Over 200,000 scouts in United States went to camp for a period of one to two weeks last year without a fatality occurring. This fact is a strong argument for the Boy Scouts of America. Boys go to camp and meet their friends from the other side of the Country and have a real chance at Camp Life.

The following four towns have the honor of being the first towns to band in local quotas for Boy Scout work. This fact speaks for itself in regard to second; Dixfield and Buckfield, third. Several other towns are about ready to pass in their quotas.

### BRIDGTON

Entertainment Given by Center School. The Center School at Cape Monday gave an entertainment and lawn party at the schoolhouse Wednesday evening, June 7th. Ice cream, candy, cake and peanuts were sold and a good sum realized for the school league.

Richard Thompson and Everett Kangas have done much more than their grade, but not on extra grade. Everett Kangas and Julia Foster have not missed a session in the year. Esther Kangas only one day and Minnie Pulkkinen two days. The school has had 45 visits by citizens besides three by the superintendent this year.

Several of the pupils have taken examinations for the high school.

Richard and Edward Holt of Norway are visiting their grandfather, Merritt Sawin.

Herman Holt and Merritt Sawin have planted sweet corn for the McWain Packing Co. They planted June 7th and 8th, which is about a week later in the season than usual. Let's hope that frost this fall will be as late as the Spring season has been.

The Dresser school reunion will be held at that place Saturday, June 24th. Unfortunately this is also the date of the Bisbee town reunion. The coincidence was discovered too late to make a change in either meeting. This will cause disappointment to many who would like to attend both. All who have been either teachers or pupils of this school and their friends are invited. There will be an old fashioned picnic dinner served on tables erected in the pines across the road from the schoolhouse, followed by a program of the pupils of the school, games, etc.

At the reunion last year which was the first one held here, it was voted to make this a permanent thing and we hope to see many more of the old friends this year.

Buy a Lancaster Tire and put it on a rear wheel—where the wear is greatest. Check your speedometer reading—and watch results. You'll find that this sturdy, oversize tire will give its three running mates, of whatever make, a real race for their money. More than likely, it will turn up more trouble-free miles than any other tire you've ever used. And the first thing you know, you'll be buying three more Lancasters.

### How the Famous Disc Clutch of the Buick "Four" Proved Itself

The same design of disc clutch that was used in the powerful war tanks is likewise used in the Buick Four.

The Buick clutch under the most gruelling conditions, has proved itself absolutely positive, dependable, and easy to operate—a clutch that demonstrated the same certainty and safety for unforeseen emergency that it did for ordinary service.

This thoroughly trustworthy unit is a development of 20 years' consistent effort. It is typically representative of the standards governing the construction of the Buick Four throughout.

### NAMED FOR DISTRICT ATTORNEY

Fred R. Dyer of Buckfield has been nominated for United States District Attorney for Maine by President Harding and confirmation is expected soon so that he can qualify and assume the duties of the position July 1.

This paper announced weeks ago that this would happen and later published confirmation of the previous announcement by reason of resignation of Dist. Atty. John F. A. Merrill.

The late Stephen C. Perry was appointed in May 1914, at expiration of the term of Robert Treat Whitehouse, but his death early in the winter left a vacancy which Judge Merrill was appointed to fill in February, 1915. Terms in this office are four years and the custom always has been for an appointee to serve the full term when change in the office, but the department of justice has made a ruling to the effect that the terms of four or eight years govern hereafter rather than the individual serving. Appointments like that of Judge Merrill are to fill vacancies rather than to start a new term.

Mr. Dyer was born in Old Town, Oct. 4, 1873, and was educated in Hebron Academy, being admitted to the bar in Oxford County in 1897. He was a representative in the Legislature from Buckfield that same year and was five years, county attorney of Oxford county, 1912 for two years, to fill an unexpired term in 1916, and in 1918 for two years. He has been a member of the Republican State committee a number of years and secretary six years.

Mr. Nulty, who will be successor to Elmer Perry is a native of Buckfield, 24 years old, was graduated from Hebron Academy in 1906 and from Bowdoin College in 1910. He was teacher of chemistry and physics in South Portland High School, also football coach and he later taught commercial subjects in Portland High School. He attended Cornell summer school in 1911 and took law courses in Columbia and University of Maine. Mr. Nulty was admitted to the bar in 1917 and was associated with Bradley & Linnell until 1920 when he was admitted to the firm of Bradley, Linnell & Jones.

## FATHER FOUND TWO-VERY SICK

Was Constipated, Thin, No Appetite, Stomach Pain

A hardy woodsman and enthusiastic fisherman of Maine, has a very interesting record to report. He writes: "As a boy, thirty-seven years ago, I began to take Dr. True's Elixir, the True Family Laxative and Worm Expeller. Once after six months hauling logs, I came out of the woods and found my two-year-old boy very sick. He was thin, had no appetite, had swollen lips, pains in stomach, was suffering from constipation for months.

"I had not been in the house an hour when an elderly lady—a good neighbor—came in and told my wife to get a bottle of Dr. True's Elixir, saying she had seen numbers of similar cases which it had relieved.

"My boy was given a half dozen doses of Dr. True's Elixir, when he passed a lot of worms and right away began to show improvement; he began soon to eat with a relish, play around and look healthy. He did not have to take a full bottle, and in later years, whenever he got off his feed, a few doses would straighten him out quick.

"When I get constipated, a couple of teaspoons of Dr. True's Elixir, the True Family Laxative and Worm Expeller, fix me O. K.

"When I get constipated, a couple of teaspoons of Dr. True's Elixir, the True Family Laxative and Worm Expeller, fix me O. K.

"My son is grown up now and has a family of six children, and he has practically raised his family on Dr. True's Elixir. The children go out and get hold of something not good for them. It's hard to watch all the children, and so when they eat something they shouldn't and get sick, Dr. True's Elixir is given and the family is put in good shape again.

"I have read in the papers you have to take a half a dozen bottles of some remedies, but you don't have to do this with Dr. True's Elixir. Simply a few doses and then quick relief. The three generations of my family have been kept healthy by using it."

Symptoms of worms: constipation, offensive breath, swollen upper lip, deranged stomach, occasional pains in the bowels, pale face, eyes heavy and dull, short, dry cough, grinding of the teeth, red points on the tongue, starting during sleep, slow fever.

Nearly every child and grown-up needs a laxative sometime. The fond parents safeguard the health of their children, as well as their own, by keeping their bowels in condition. In Dr. True's Elixir only pure herbs are used. No harmful drugs. Keep the bowels regular by using Dr. True's Elixir, the True Family Laxative and Worm Expeller. 40c, 60c, \$1.20.

### The Wentworth Poultry Fountain

(Patent Applied For)

We have recently perfected and are now offering a new fountain or watering system known as THE WENTWORTH POULTRY FOUNTAIN. It has been developed with the idea of lessening the spread of diseases through the drinking of contaminated or impure water. The fountain or main body of water is entirely separate from the drinking vessel. Water is automatically drawn from the fountain and from the drinking vessel. It will thus be seen maintained at any predetermined depth in the drinking vessel, for it does not come in direct contact with water in the drinking vessel. The object, therefore, of the fountain is to automatically supply fresh pure water as required by the birds, and its advantages are as follows:

FIRST—The Drinking Vessel, being separate from the main body of water, may be rinsed or disinfected at will without interfering with the fountain or main water supply.

SECOND—There are no float valves, air tight caps, or anything of the sort to get out of order. Its construction is simple; its operation is positive and pleasing.

THIRD—It is durable—will last a lifetime, and is inexpensive.

## This Portland Woman Gains Twenty Pounds

Indigestion and Nervousness Entirely Gone and She Has Never Felt Better, Says Mrs. Gamsby.

"I had not been taking Tanlac but little more than a month when I actually gained twenty pounds in weight," said Mrs. Lillian Gamsby, 12 Alder St., Portland, Me.

"My health failed last summer and I lost strength and got weak so rapidly I soon wasn't able to do my housework. My appetite was so poor I did not average one meal a day and my back pained me terribly. I also suffered constantly with constipation and frequent headaches. My nerves were shattered, I could get no rest, and one night I broke down completely and had to stay in bed for quite a while. I was almost a nervous and physical wreck and tried so many medicines without getting relief that I almost lost hope.

"Finally I decided to try Tanlac and the very first bottle helped me wonderfully. Now, I am perfectly well and enjoy as good health as I ever did in my life. I am simply delighted with Tanlac."

Tanlac is sold by all good druggists.

## FROM GIRLHOOD TO WOMANHOOD

Woman Relied Upon Lydia E. Pinkham's Vegetable Compound

Emporia, Kansas.—"I began using Lydia E. Pinkham's medicines years ago when I was a girl. For several years I had severe pains at menstrual periods, making me very weak and interfering with my regular duties. I tried several remedies without obtaining relief. I was induced to try Lydia E. Pinkham's Vegetable Compound by friends and it restored me to normal health. I often have occasion to do recommend your Vegetable Compound to my friends who have troubles similar to my own. You may use these facts as a testimonial."

EVA ALDRICH, 218 Union St., Emporia, Kansas.

There are many women who first used your Vegetable Compound during their early years. They found it a valuable help during trying periods. In later years they use it whenever they feel those annoying symptoms which women often have.

Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is prepared carefully from the best quality of medicinal plants, whose properties are especially adapted to correct the troubles women have.
